A note from our CEO

To make any kind of meaningful progress, it's important to have a growth mindset and constantly find opportunities to learn. This has never been more important than now, as the world of work is transformed by ever greater technological advances.

I believe our purpose at the Learning People is to help your talent realise it's true potential and provide a platform to develop the skills employers are looking for.

We have supported thousands of students to switch or progress their careers and become the professionals they aspired to be. We do this by tailoring learning to your ambitions, supporting you through your studies and providing career services to maximise your chances of securing your next role.

If you are committed to taking control of your future and advancing your career, our team are on hand to help you choose the right path to achieve your goals.

Benefits of digital education

Technology has changed the way we live, work, and learn - and the benefits of digital education now significantly outweigh traditional classroom training.

Study when it suits you

✓ Increased flexibility with online learning

✓ Self-paced education without restrictions or rigid timetables

✓ Training is on-demand and available when it suits you

Real-life practical skills

✓ Industry certifications enable you to apply knowledge in real life professional situations

✓ Certifications are used by employers as a benchmark of skills and competency

Investing in your career

✓ Remove travel costs by learning from home

✓ Keep your current job, and study whenever it suits you

✓ Online education is far less than the cost of classroom training or University degrees

Regularly updated course content

✓ Digital education is updated far more regularly than University education

✓ Industry experts continuously review course content to ensure it is inline with industry demands

✓ Courses are curated with your employability in mind

Personalised learning

✓ Online training has unlimited scope for flexibility, compared to traditional University education

✓ Learning People provide personalised education packages, based upon your unique career goals and learning requirements

Why choose Front-end PLUS?

The Industry

Experts have warned that we are heading towards a 'digital skills shortage disaster'* with the list of critical skills shortages including programmers, web designers, and software developers.

In 2021 the demand for software developers doubled**, and software engineer became the world's most in-demand profession.

Regardless of your background or experience, learning the skills to enter a career in coding and software development is lucrative, and in-demand.

There has never been a better time to successfully pivot to a new career in tech and play a key role in bringing ideas that change the world to life through computer code.

• The average salary of a Junior Front End Developer is £26,894
• The average salary for a Senior Front End Developer is £53,405

Aims

Front-end PLUS is a world exclusive blend of Learning People support and state of the art learning assets utilising a dynamic project driven pathway.

Upon completion, you will have learnt the relevant coding languages and gained the practical skills to be job ready as a front-end development professional.

Accreditors

Learning People
As the UK's largest online tech training provider, Learning People are experts in job ready accreditations and we have more than a decade of experience and success in helping people advance their careers. We are Learning Performance Institute (LPI) accredited since 2012 and our students achieve a 93% employment rate upon graduation.

ISTQB Certified Tester Foundation Level

Course overview

The **ISTQB® Certified Tester Foundation Level** helps you first understand the fundamental concepts of software testing. You'll then be taught the common language for efficient and effective communication with other testers and project stakeholders.

Upon completion you'll be competent in establishing testing concepts, test processes, test approaches, and principles to support test objectives. The certification will also ensure you can design and prioritise tests by using common techniques as well as nurture your ability to analyse both functional and non-functional specifications such as performance and usability.

Certification name:
ISTQB® Certified Tester
Foundation Level

Study time:
10 hours

Prerequisites:
None

Support included:
Expert mentoring,
StudentCare™, and
Career Services

Assessment type:
1 x examination

Course level:
Entry

Front-end PLUS

Course overview

Front-end PLUS allows you to test and reinforce your skills with multiple projects and 129 beginner friendly lessons.
You'll start Front-end PLUS by using guided practice, this enables you to try out new skills with fully supported guidance. If you get stuck, there's tons of resources to show you how an experienced developer would work through the problem you've encountered.

You'll then level up to challenge projects where you have the opportunity to solve problems and find your own solutions while also being fully supported by your Learning People mentor and personal sandbox environment.

Finally, you'll build 3 portfolio projects from scratch, which are also fully supported by Learning People mentors for one to one guidance and support.

Certification name:
Front-end PLUS

Study time:
215 hours

Prerequisites:
None

Support included:
Expert mentoring, StudentCare™, and Career Services

Assessment type:
3x portfolio projects

Course level:
Entry

Choose us for...

✓ We'll get you career ready and help place you into the industry

✓ Experience industry leading tuition delivered online

✓ Unrivalled career services and award winning student support

✓ We only partner with the biggest accreditors in the world

✓ You'll enrol onto a career pathway, not just a course

✓ Changing career, starting fresh or simply want to advance in your current role - we've got you covered

Career Services

Your success doesn't stop at the completion of your online training. Our exclusive Career Services exists to get you into your dream role.

Career Services

How does it work?

During your studies, you will be prompted to sign up for our complimentary career services.

Along with tailored support to guide your job search, you this will give you access to **exclusive eBooks** set across 3 phases. These will give insight into the jobs market and offer guidance for how to land your dream role.

In addition to this, our career service consultants offer a **personalised review** of your CV, cover letters and LinkedIn profile and will share unique industry insights into building your network and interview preparation. We **boost your employability** in your desired industry and will continue to support you until you enter your next role.

Am I guaranteed a job?

We never guarantee a job at the end of your training, because it takes a collaborative effort between us and yourself.

Our certifications are all designed to get you career ready, using exclusive partners that provide the industry-leading certifications and our Career Services is on-hand to support the rest. All we need from you is passion and drive.

Many of our students have found great success after enrolling for Career Services. We will always go the extra mile to help you achieve this.

"

I received invaluable support and advice from the Career Services team at Learning People, who made recommendations regarding job applications and interview tips and techniques.

**- Azhar Chaudri,
Learning People student**

Student testimonial: Sam Inquieti

Sam currently works as a transformation and change consultant for Deloitte.

What were your career goals?

I wanted to gain qualifications that enabled me to undertake projects in different areas rather than resource management and HR system implementations which I had done in the past.

What was your Learning People experience like?

My experience with Learning People has been brilliant, from the very first consultation call, where they went through what I wanted to achieve, and advised me on the best courses for me.

The most value they added to my experience would be the support during the course from the tutor. Any questions were answered instantly and the StudentCare™ department have been second to none. It's been fantastic.

How has getting certified in a new skill changed your life?

Becoming certified has enabled me to gain the confidence to push back where I need to, to put in place formalisation, or to guide the organisation to putting in place the formalised ways of working which would be required to make a project successful.
